MEMORANDUM FOR: Director of Security

STATINTL

FROM : [REDACTED]
Chief, Support Staff, IC

SUBJECT : Coordination of Proposed [REDACTED]
"Security"

STAT

1. Attached herewith is our proposed regulation on Security. It paraphrases current CIA Regulations (which we are aware are in the process of complete revision), and assumes that we will place primary reliance on the Office of Security for support in this area. It also assumes that the DCI's and CIA's special authorities will eventually be extended to the ICS as an independent agency.

STATINTL

2. Please review our proposed regulations, bringing them into line with any revisions you plan to make in the CIA [REDACTED] series and pointing out where there may be decisions still to be made as to the support to be provided by the Office of Security to the ICS. We are interested essentially in regulations which will demonstrate the ICS' independence of any one Intelligence Community agency and allow the ICS to stand on its own feet (insofar as that is realistically achievable) without unduly limiting its flexibility.

STATINTL

3. If there are any questions concerning our proposals, or should you desire to suggest specific editorial changes, please call [REDACTED] heads the task force responsible for developing the IC Staff Regulations, insuring their proper coordination and ultimately their publication. In this regard, he will be working very closely with the undersigned and with the Associate Deputy to the DCI for the Intelligence Community.

4. We would appreciate your completed comments and suggestions for changes no later than 18 March 1977.

STATINTL
